ABOUT THE EVENT

LNG Transport Forum: European LNG market integration – the platform of communication within the LNG sector in Europe – created for the gas industry will be held on 14-15 October 2015, in the Port of Valencia, Spain. The 2-day event will bring together high-class speakers, project representatives, business and other market players, as well as market analysts, delegates and key representatives from the European transport market.

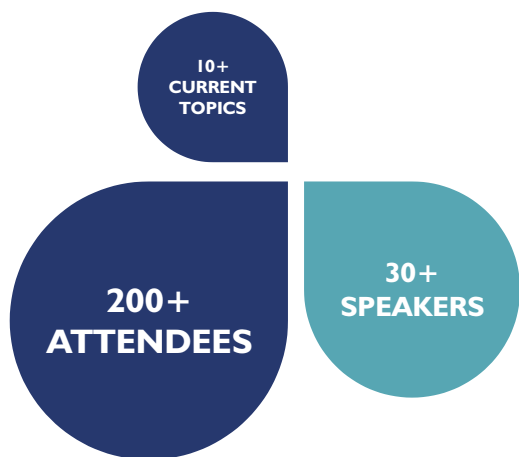

This year LNG Transport Forum agenda covers issues regarding LNG applicability in emission controlled areas, LNG synergy possibilities and innovation in ports.

Event includes:

- international presentations
- discussion panels
- exhibition area
- networking opportunities
- business development

Key industry representatives will gather in Europe's fifth busiest seaport modern facility to debate on the current topics and challenges for the industry to meet. This first edition of the LNG Transport Forum will be neatly reported, summarized and distributed among the European and world LNG representatives.

ABOUT US

Founded in year 2000, **Actia Forum** is specialised in delivering events/meetings and consulting that match the needs of the transport & logistics industry. Actia Forum's portfolio covers two areas – events and consulting. By firmly standing on these two legs, we can guarantee that whatever goals our clients wish to accomplish, we are here to support them in their journey.

Events. We organize both our own events (such as Transport Week) as well as 100% ready projects if you plan to launch a conference, a meeting, a seminar dedicated to the transport sector or make a spectacular opening ceremony with a twist – just name your needs and leave the logistics to us.

Consulting. Our unique reports and consultancy expertise are used to lower investment risks and make business plans more secure – all this for you to take a fast, economically sound and responsible decision. In other words – we help to make the right choice.
